

Open-file gravity and magnetic data and published literature establish the bases for this two-phase, non-exclusive, play-oriented structural interpretation. Phase I covers the Sunda Shelf and South China Sea and Phase II covers Central Indonesia .

PHASE I
Sunda Shelf & South China Sea

- Baram Delta
- Beibu Wan Basin
- Hoang Sa Basin
- Luconia Platform
- Malay Basin
- McClesfield Bank
- Mekong Basin
- Nam Con Son
- Nha Trang Basin
- Outer Basin
- Paracel Islands
- Pearl River Basin
- Reed Bank
- Sabah Trough
- Sokang Basin
- Song Hong Basin
- Spratly Islands
- Thai Basin
- West Natuna Basin
- Yang Ghe Basin

PHASE II
Central Indonesia

- Barito Basin
- Bali Basin
- Bawean Trough
- Billiton Basin
- Bone Basin
- East Florence Basin
- Flores Basin
- Gorontalo Basin
- Java Foreland Basin
- Kangean Basin
- Kutei Basin
- Mahakam Basin
- North Banda Basin
- North Makassar Basin
- Palembang Basin
- Paleng Basin
- Savu Basin
- South Celebes Basin
- South Kapuas Basin
- South Makassar Basin
- Southern Sunda Shelf
- South Sumatra Basin
- Strait of Madura
- Sunda Basin
- Tarakan Basin
- West Java Basin
